KISHU MARKET REFERENCES

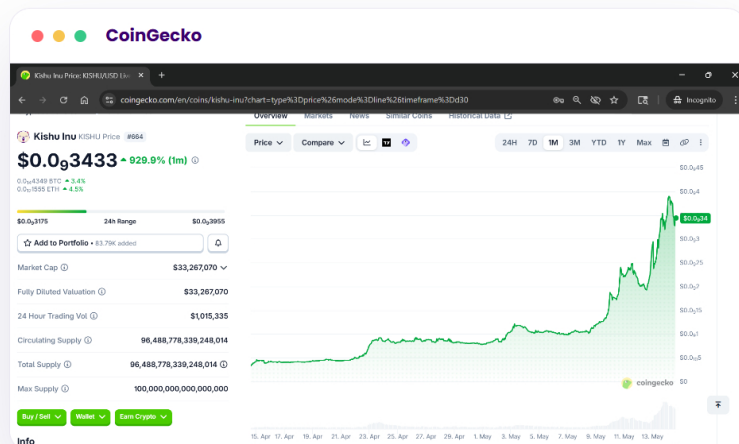

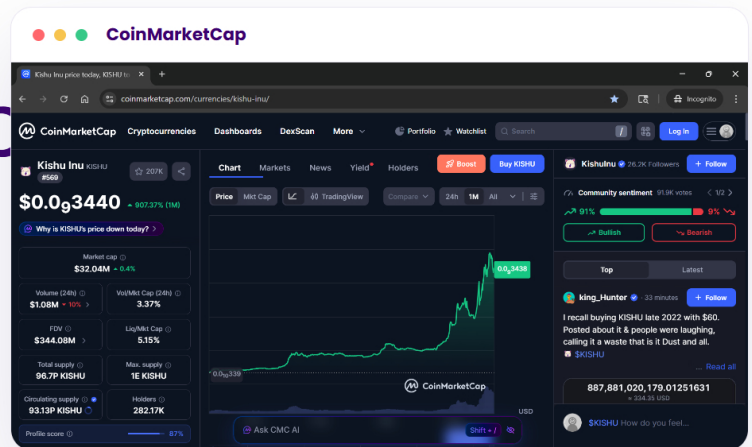

Charts

Use these public references to compare KISHU market data across major token pages and DEX charting tools. None of these links are wallet recovery pages, and no chart page should ever ask for a seed phrase.

MARKET REFERENCE

CoinMarketCap

CoinMarketCap is a public market reference for token profile data, price movement, exchange listings, and community-facing market context. Always verify the Ethereum contract before relying on any listing.

[OPEN COINMARKETCAP](#)

MARKET REFERENCE

CoinGecko

CoinGecko is a public market reference for token profile data, historical price movement, liquidity references, and independent token page metadata.

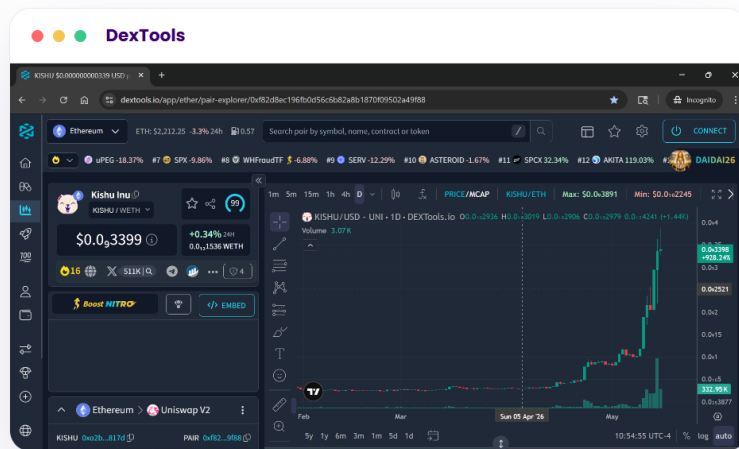

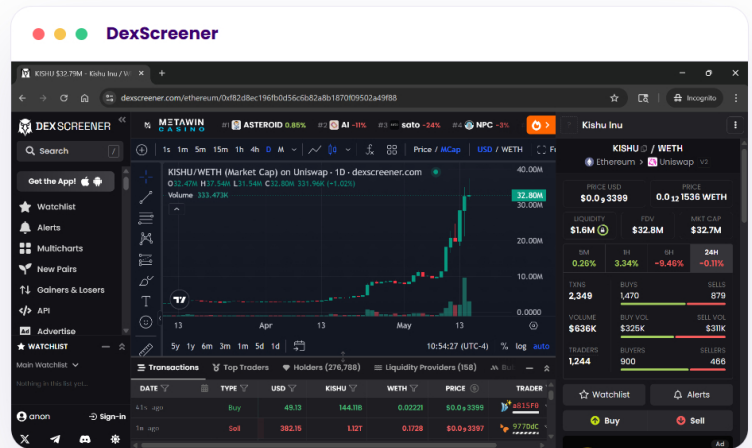

[OPEN COINGECKO](#)

DEX CHART REFERENCE

DexScreener

DexScreener shows the Ethereum Uniswap market pair view, including live DEX charting, pair activity, liquidity snapshots, and recent swap activity.

OPEN DEXSCREENER

DEX CHART REFERENCE

DexTools

DexTools provides another Ethereum Uniswap pair view for charting, pair inspection, transaction review, and market monitoring.
